Commissioner for Patents

Alexandria, VA 22313-1450

Dear Sir:

This Response is filed in response to the non-final office action of 12/28/06.

**REMARKS/ARGUMENTS**

Claims 1-24 are pending in the application. The Applicant hereby requests further examination and reconsideration of the application in view of these remarks.

On page 2 of the office action, the Examiner stated that the application contains more than one species of the generic invention and required the Applicant to elect a single species from among nine species identified by the Examiner. In response, the Applicant elects with traverse Species III directed toward Fig. 16. According to the Examiner, claims 1-3, 8, 11-16, and 21-24 are deemed to correspond to Species III. In addition, the Applicant submits that claims 4, 9-10, and 17 also correspond to Species III.

On page 3, the Examiner stated that claim 1 is considered to be generic. The Applicant notes that by the Examiner's own reckoning at the bottom of page 2 and the top of page 3, claims 2-3 should also be identified as being generic, since they are identified as corresponding to each of the nine different species.
